## China Supplier 200 Micro Greenhouse Film - Greenhouse Air Circulation Fan Ventilation Product ZLFJ400/500, Stainless Steel - Fenglong Greenhouse

What is Circulation Fan?

Circulation Fan, also known as Greenhouse Air Circulation Fan, keep your plants and staff safe from heat during the warm summer months. Greenhouse circulation fans promote uniform temperature throughout your greenhouse, cold frames, high tunnel, or commercial warehouse. Improve plant production levels, reduce heat stress, eliminate condensation on walls and ceilings, keep greenhouses and buildings fresher.
